

Attention Case Managers

Due to changes to Medicaid, all homeless residents will be required to enroll in a Medicaid Managed Care Plan and must choose a clinician as their Primary Care Provider (PCP).

1. The Floating Hospital accepts all Medicaid Managed Care Plans, and we encourage residents to choose a Floating Hospital provider as their Primary Care Provider.
2. As a resident's PCP, The Floating Hospital can continue to serve as your residents' family doctor and allow us to support you in providing continuity of care.

We look forward to serving your residents during this transition.

For questions call 718-784-2240, extension 299
