

THE FLOATING HOSPITAL

Attention Case Managers

Help your families receive respectful and compassionate health services

- The Floating Hospital **never refuses homeless families** who are in need of treatment due to a lack of insurance.
- **Free van transportation from all five boroughs** provides a safe and convenient service for families living in shelters, domestic violence safe houses and doubled-up.
- Our main clinic in Long Island City offers “one-stop” full service **primary medical, dental, mental/behavioral and speciality healthcare for the entire family**. We have a **pharmacy on premises** and offer prescription payment options for uninsured and undocumented patients.
- We offer **health education at our clinics and in shelters**. TFH clinic workshops range from group settings for children and teens to one-on-one consultations for parents/adults. Our summer overnight **Camp Rise Up for kids 12-15** offers robust outdoor activities and interactive classroom sessions.
- Our experienced and **multilingual staff** is dedicated to the belief that all patients deserve the quality care, respect and dignity needed to ensure a healthy future for themselves and their children.

The Floating Hospital offers free van transportation

Founded in 1866 as New York City's first pediatric clinic, The Floating Hospital has served as the family doctor to millions of New Yorkers. Today, we are the single largest primary healthcare provider to NYC's homeless families, providing more than 40,000 patient visits annually to women and children living in shelters and domestic violence safe houses in all five boroughs.

Direct access for shelter management staff:
